

COPAR SCOREBOARD

The *NEW* Copar Scoreboard complements any existing COPAR Corrugator Control or may be purchased as a stand-alone display system.

When integrated with full Copar systems, on-screen messaging helps relay important information including reasons for automatic speed changes or sudden machine stops initiated such as missed splice paper breaks. With the optional Scorecard software, the screens may be setup to display Monthly Leader shift rankings while the machine is down to raise operator awareness and promote friendly shift-to-shift usage competition.

- Dual sided, 75" HDTV displays for the corrugator
- The open-enclosure metal hood design provides a professional finished look
- Cables are hidden from view for a clean appearance
- Fully customizable data, show the information most important to you
- Upgrade options for customers with aging, smaller 50" HDTV Displays
- 74" x 43" x 38" (W x D x H)
